

Shreyas Dutt

Vancouver, CA | shreyasduttwork@gmail.com | linkedin.com/in/shreyasdutt | canadianscart.ca

EDUCATION

University of the Fraser Valley

Bachelor of Computer Information Systems (BCIS)

2022 – 2026

Abbotsford, BC

EXPERIENCE

Full-Stack Developer

Canadians Cart

Feb 2026 – Present

Remote/On-site

- Conceived, designed, and built a full-scale e-commerce platform (canadianscart.ca) from the ground up, serving customers across Abbotsford
- Built with Next.js, TypeScript, MongoDB, Gemini AI, Inngest, and Pusher
- Product lifecycle – planning features, designing the data model, building the frontend and backend, testing, debugging, and shipping to production
- Engineered role-based authentication and authorization with dedicated workflows and interfaces for customers, administrators, store managers, and cashiers
- Engineered core systems including a referral and rewards program, real-time cart synchronization, transactional email infrastructure, and secure checkout flows
- Continuously identified and resolved performance bottlenecks, race conditions, and edge-case bugs through iterative testing and debugging to keep the platform stable under real user traffic
- Iterated on UI/UX across the site to improve load times, responsiveness, and overall customer experience

Web Development Intern

Psyche Therapy

Jun 2024 – Aug 2024

Chandigarh, India (Hybrid)

- Designed and developed the company website using React.js and Figma
- Managed SEO strategy, branding, and domain setup for the site

Digital Marketing Intern

360GrowthMarketing

May 2024 – Aug 2024

Mohali District, India

- Crafted engaging content and implemented SEO strategies to enhance online visibility and drive organic growth
- Contributed to digital marketing initiatives across multiple client accounts

Information Technology Intern

Coli Spaces

May 2024 – Jul 2024

Chandigarh, India (Hybrid)

- Supported IT operations, including WordPress site management and digital illustration work

PROJECTS

AuthFlow | *Node.js, Express, MongoDB, React, JWT*

- Built a custom authentication system from scratch, including secure signup/login, OTP-based email verification, and password reset via email confirmation
- Implemented JWT-based authentication using HTTP-only cookies, with password hashing via bcrypt and secure handling of sensitive data
- Integrated Nodemailer/SMTP for transactional verification and reset emails

Opinion – Anonymous Feedback App | *Next.js, TypeScript*

- Built a web app that lets users create customizable feedback “spaces” to collect honest, anonymous responses
- Implemented space customization (logos, custom questions), shareable links, and a dashboard tracking views, feedback count, and conversion stats

TECHNICAL SKILLS
